EXPERIENCE

Software Developer
Code and Trust

09/2022 - 02/2024   *Charleston, SC*
Achievements/Tasks
- Constructed reusable frontend components using tools like Typescript, Material UI, and React Query.
- Facilitated API endpoint development and debugging with tools like Express, Prisma, and Postman.
- Implemented front end components for user profiles and messaging based on Adobe XD and Figma designs.
- Contributed to the design of email templates used for automated messaging.
- Created intuitive front-end experiences for both manager and user applications, and also made sure the two communicated properly.
- Managed multiple permission levels of users while creating new API endpoints.
- Worked with an agile team to integrate multiple social media networks into one cohesive platform.
- Coded flexible front end solutions for things like scheduling posts, uploading media, and adding contacts.

Production Assistant
Broderville Pictures, Standard Production

01/2018 - 01/2019   *Charleston, SC*
Achievements/Tasks
- Collaborated with videographer teams to better develop individual scenes.
- Assisted with commercial productions for MUSC, William Murray Golf, and other advertisements.

Percussionist / Tour Manager
Freelance

03/2014 - Present   *Charleston, SC*
Achievements/Tasks
- Performed at events such as Audiotree live, High Water Festival, and North by Northeast.
- Traveled and coordinated logistics with various musical acts across the United States and Canada.
